Education

University of Toronto

Honours Bachelor of Science in Computer Science

Toronto, ON

Sept 2019 - Aug 2023

- **GPA:** 3.91/4.0
- **Relevant Courses:** Software Engineering, Data Structures and Algorithms, Databases, Computer and Network Security

Experience

University of Toronto Scarborough

Teaching Assistant

Toronto, ON

January 2023 - April 2023

- Developed highly effective **Angular** and **CORS** tutorials for CSCC09 Programming on the Web
- Reinforced students' understanding of web technologies, **RESTful** APIs, cloud deployment, and containerization with **Docker**.
- Honed communication, mentorship, and leadership skills to foster an engaging learning environment

HSBC

Cloud Full Stack Engineer

Vancouver, BC

December 2021 - December 2022

- Developed cloud-based web apps for HSBC Wealth Compass and US Product Onboarding using **React** and **Redux**
- Engineered RESTful APIs and API Orchestration layer using **Spring Boot** and **Express.js** microservices deployed on **AWS**
- Reduced maintenance cost by 40% by migrating legacy JavaScript codebase to **TypeScript**
- Worked closely with a cross time-zone **Agile Scrum** team to support systems critical to Retail Banking across North America
- Mentored 3 new employees and interns on frontend development, API design, and advanced product knowledge

Ontario Institute for Studies in Education

Software Developer

Toronto, ON

October 2021 - June 2022

- Implemented new tools for collaborative learning software using **Angular**, **Fabric.js** and **Firebase**
- Established real-time data updates on virtual classroom whiteboards with over 30 concurrent users using **socket.io**
- Built a data collection framework for researchers to analyze classroom activity and generate reports

University of Toronto Scarborough

Software Developer

Toronto, ON

September 2021 - February 2022

- Analysed trends across global news sites by constructing data visualizations using **Python**, **pandas**, and **Matplotlib**
- Improved the efficiency of the Python website crawler by 50% by applying filters and caching data
- Served browser-accessible **Jupyter Notebooks** for researchers using Jupyterhub deployed on the cloud

UofT Hatchery

Software Engineer

Toronto, ON

May 2021 - October 2021

- Built time-saving dashboard features for a startup incubator program using **Vue.js**, **PHP**, and **WordPress**
- Designed **MySQL** database schemas to store user data and survey responses

Cineplex Digital Media

Software Developer

Toronto, ON

September 2020 - April 2021

- Led the development of **web applications** and digital signage for clients such as RBC and Scotiabank
- Adapted **HTML**, **CSS**, and **JavaScript** projects to serve over 30 different countries, currencies, and languages
- Automated manual waiver signing process by building a customer-facing portal using **React**

Projects

Codebook

React, Node.js, Express.js, MongoDB, ShareDB, Docker, DigitalOcean, nginx

Toronto, ON

June 2022 - August 2022

- Developed a real-time collaborative coding application for conducting technical interviews
- Configured nginx reverse proxy to perform load balancing and TLS termination

Skills

Programming	Java, Python, C, HTML, CSS, JavaScript, TypeScript, PHP
Frameworks and Libraries	Spring Boot, Node.js, Express.js, React, Angular, Vue.js, Redux, Bootstrap, NumPy, pandas
Databases	MongoDB, MySQL, PostgreSQL, Firebase, Neo4j
Tools	Git, Jira, Docker, AWS, WordPress, Heroku, Postman, nginx, Linux
